# FY2024 CoC Program NOFO Project Ranking Criteria and Methodology

#### **Project Eligibility and Threshold Requirements:**

All projects must meet minimum project eligibility, capacity, timeliness, and performance standards identified in the NOFO or they will be rejected from consideration for funding. Project applicants must demonstrate the financial management capacity and experience to carry out the project as detailed in the project application and the capacity to administer federal funds.

All projects must meet basic eligibility requirements as outlined in 24 CFR 578.

All projects must also meet all eligibility and threshold requirements as outlined in the FY2024 CoC Program Competition NOFO. New projects that do not meet all threshold requirements will be rejected. (See attached threshold requirement checklist)

#### **Reallocation Process:**

Renewal projects may voluntarily reallocate a portion of their funds by reducing the amount in their renewal project application. Renewal projects may be reallocated in part or in whole during the review and ranking process because of poor performance, unused budget amounts from previous years, or need for increased funding in a higher priority project type according to the CoC's local priorities. Lower performing projects that score more than 20% below higher performing projects will be automatically considered for reallocation by the CoC.

#### **Ranking Process:**

Project applications submitted to the CoC must be reviewed and either accepted/ranked or rejected by the CoC. All project applications approved by the CoC must be listed on the CoC Priority Listing in rank order. Higher ranked projects will fall into Tier 1 and lower ranked projects will fall into Tier 2. NOFO Tier threshold information is not presented at the ranking meeting. CoC members will rank the approved projects in numerical order based on project score considering current CoC priorities.

Any COC Board Member associated with an agency that is applying for funding will not be a part of the ranking process.

Prior to the ranking meeting, project scoring forms are pre-scored based on the project application and on HMIS data in accordance with the CoC's approved scoring formula. Per HUD rules, the CoC planning grant is not scored or ranked, and therefore it is not presented at the ranking meeting.

New projects, and renewal projects operating for less than six months, will be scored and ranked using the New Project Rating Tool. Renewal projects will be scored and ranked using the Renewal Project Rating Tool.

If two or more projects' scores result in an identical rating, the tie will be broken according to the CoC's 2024 referral priorities.

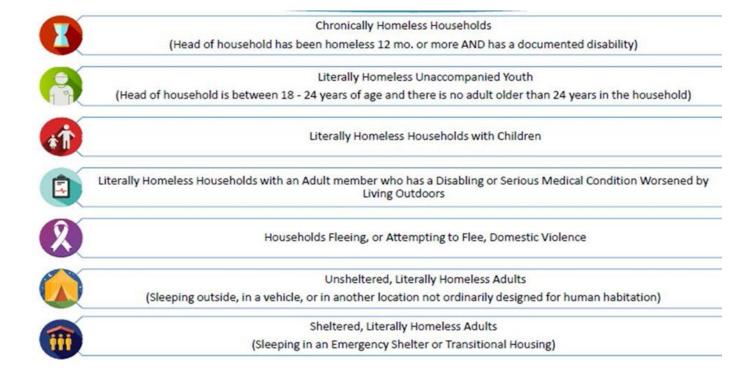

CoC infrastructure projects – HMIS and Coordinated Entry – must be ranked in the top half of the approved and ranked projects.

The CoC reserves the right to adjust a project's ranking upward if the project fills a critical service gap and/or community need. Likewise, the CoC reserves the right to adjust a project's ranking downward if the project is deemed noncompliant with CoC Policies & Procedures, noncompliant with HUD regulations, fails to adhere to the Housing First Model of assistance, fails to expend its grant funds in a timely manner, no longer fills a critical service gap, or no longer serves an established priority population.

#### **2024 CoC Priorities:**

The AL-501 CoC requires participating projects to utilize Coordinated Entry for 100% of their program participant referrals. Using the VI-SPDAT, Coordinated Entry evaluates and refers participants according to the highest vulnerability and need. The CoC currently funds programs serving chronically homeless, homeless with disabilities including serious mental illness, families and youth, those fleeing domestic violence, and those exiting institutions and incarceration.

In conjunction with the VI-SPDAT, the CoC refers program participants based on the following referral priority listing (top is highest priority):
